RE: Contract NO. N62472-92-D-1296, CTO 0041
Soil Sampling and PCB Analysis - Site 13
NCBC Davisville, Rhode Island
Submitted 5 April 1996

Dear Ms. Davis;

The Rhode Island Department of Environmental Management (RIDEM) Division of Site remediation has reviewed the above referenced document and finds it acceptable per the following comment. As noted in RIDEM's 22 March 1996 letter to Mr. Otis, if PCB contamination is found at the four foot depth it may be necessary to sample groundwater since the groundwater table is approximately one foot below this level. RIDEM is again reiterating this concern since it was not mentioned in the above referenced sampling plan.

If you have any questions or require additional information please call me at (401) 277 3872 ext. 7138.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard Gottlieb".

Richard Gottlieb, P.E.
Principal Sanitary Engineer
